CUT CHARACTERISTICS

Crinkle Cut: Distinctive appearance enhances plates, baskets and platters in a variety of operations. Crisp outside with a tender center. 5/16", 3/8" & 1/2" cuts available.

Entrée Fries, Steak Fries and 1/2" Straight Cuts: Hearty cuts are an alternative to a baked potato. Suitable for casual, theme, or fine dining situations.

Plate Fries: These diamond-shape cut fries are unique to the industry. The diamond shape results in crisp edges with a fluffy baked potato interior. In addition, it provides plate coverage similar to steak and entrée fries.

Wedges: Homemade, skin-on appearance and full-bodied potato flavor. The ideal base for signature dishes and appetizers in casual dining, fine food and deli applications. Several cut sizes. Plain or batter coated.

Loops and Lattice Cuts: Tight loops and hearty lattice cuts make dining fun. Mildly seasoned, flavored or plain, suitable for casual, family and fast-food operations.

Formed Specialties: Outstanding ease of preparation and exceptional taste make these ideal for take-out, fast food and institutional applications.

Chunks: Hand-cut appearance, with or without skin, in uniform or random sizes. Great for breakfast, as a side, or in signature dishes.

Shoestring: Extra crispy and cooks fast. Long and thin to maximize plate yield and perceived value. Perfect for fast food applications.

Thin Cut: A rectangular cut combining the heartier bite of a 3/8" fry with the faster cook times and higher yield of a 5/16" fry. The best of both worlds.

Savory Seasoned Potato Wedge

64778 6/5 lb.

Savory batter gives a signature look and taste that will attract customers. Take-out customers get a hot, crispy fry that they can eat with or without ketchup. 478010

Sour Cream & Chive Thin Cut Potato

64796 6/5 lb.

Sour cream & chive batter flavor is a consumer favorite. Bake or fry preparation convenience. Take-out customers get a hot, crispy fry that they can eat with or without ketchup. 71179474029

STYLE CHARACTERISTICS

Uncoated: Traditional fry flavor and texture - - the kind your customers grew up with.

Battered: Whether flavored or unflavored, battered fries offer longer hold time for less throw away and better performance after sitting on a plate, in a bag or under heat lamps. Flavored batters adapt easily to regional and ethnic specialties. Also improves yield and reduces fry breakage.

Skin On: Offer a more hand-cut, homemade appearance and even more authentic potato flavor.

Brined: Fries with a light, natural salt solution applied during processing, eliminating the need for additional salting prior to serving.
